Instructions to obtain Unique Entity Identifier (UEI) Number and for Award Management (SAM)

As of April 4, 2022, the federal government transitioned from the DUNS Number to the new UEI (generated in SAM.gov), for entity identification of federal awards governmentwide. The UEI is used within the SAM.gov and other government award and financial systems to identify a unique entity.

Entity identification in federal awards (grants, loans, contracts, etc.) means a unique set of numbers and letters used to identify every entity seeking to do business with the federal government. Prior to April 3, 2022, the federal government used the DUNS Number, assigned by Dun & Bradstreet.

Federal contractors and assistance recipients registered in SAM.gov do not need to take any action. Your UEI has been assigned and is visible in your registration at SAM.gov

To get a UEI for your organization without having to complete a full entity registration go to the following link: <https://sam.gov/workspace/em/enti-ties/register>.

System for Award Management (SAM)

The entity must access the System for Award Management (**SAM**) and register. There is **No Fee** for you to register or to renew/update your organization's information on SAM.gov. The link to SAM is as follows: www.sam.gov.

In addition, you can contact the Federal Contracting Center and request for technical assistance.

Pier Bahía Urbana, Fernández Juncos Infrastructure**

Dear Ms. Sanders,

Our Office has received and reviewed the above referenced project in accordance with 54 USC 306108 (commonly known as Section 106 of the National Historic Preservation Act, as amended) and 36 CFR Part 800: Protection of Historic Properties from the Advisory Council on Historic Preservation. The State Historic Preservation Officer (SHPO) is to advise and assist federal agencies and other responsible entities when identifying historic properties, assessing effects upon them, and considering alternatives to avoid or reduce the project's effects.

After careful review of the submitted documentation, the SHPO concurs with your finding that the proposed undertaking meets the criteria of **adverse effect**. We deem adequate to resolve said effect through the Abbreviated Consultation Process as outlined in the Third Amendment to the Programmatic Agreement by implementing Treatment Measure A.1 (Recordation – Digital Photography Package) to document each of the buildings being demolished.

In addition, we agree with the following recommendations proposed by the agency:

1. Navy Pier Front (APE-1): Subaquatic Phase IB prior to the initiation of construction activities and archaeological monitoring during all ground-disturbing activities and any use of heavy machinery.
2. Fernández Juncos Avenue (APE-2): Archaeological monitoring during all ground-disturbing activities and any use of heavy machinery.
3. Pedestrian Access at PR-1 Km. 3.2 San Juan (APE-3): Since this is a NRHP-eligible historic property, acknowledged by SHPO in 1995 (Vega, 1995) under Criterion A, C and D, a Phase IA study with an archaeological monitoring plan crafted specifically for the NRHP-eligible historic property is recommended. Also, a subaquatic Phase IB prior to the initiation of construction activities and archaeological monitoring during all ground disturbing activities and any use of heavy machinery is recommended.

If you have any questions or comments regarding this matter, do not hesitate to contact our Office.

Sincerely,

Carlos A. Rubio Cancela

State Historic Preservation Officer

Memorandum:

During a meeting held on April 2, 2026, the Grant Manager (GM) and the Tetra Tech Environmental Team discussed the need to correct and clarify the recommendations for the subaquatic Phase IB investigation included in the Effect Determination Form (EDF) for the project.

This clarification is necessary because the current Recommendation section incorrectly assigns the subaquatic Phase IB investigation to APE-3, Pedestrian Access at PR-1 Km. 3.2, San Juan. Upon review, it was confirmed that APE-3 does not include any waterways within its APE. Therefore, the subaquatic Phase IB recommendation was intended to apply to APE-2, Fernández Juncos Avenue improvements, rather than to APE-3.

This correction is consistent with the determination language already included in the EDF, which states:

"In addition, before initiating any activities within APE-1 (Navy Pier Bulkhead and Boardwalk) and APE-2, specifically along the San Antonio Bridge segment of the Fernández Juncos Avenue and connector improvements, a subaquatic Phase IB investigation is recommended."

Accordingly, the correction applies only to the Recommendation section of the EDF, as presented below.

Current Recommendation Section

Navy Pier Front (APE-1):

Subaquatic Phase IB prior to the initiation of construction activities and archaeological monitoring during all ground-disturbing activities and any use of heavy machinery.

Fernández Juncos Avenue (APE-2):

Archaeological monitoring during all ground-disturbing activities and any use of heavy machinery.

Pedestrian Access at PR-1 Km. 3.2, San Juan (APE-3):

Since this is an NRHP-eligible historic property, acknowledged by SHPO in 1995 (Vega 1995) under Criterion A, C, and D, a Phase IA study with an archaeological monitoring plan crafted specifically for the NRHP-eligible historic property is recommended. In addition, a subaquatic Phase IB prior to the initiation of construction activities and archaeological monitoring during all ground-disturbing activities and any use of heavy machinery is recommended.

Revised Recommendation Section

Navy Pier Front (APE-1):

Subaquatic Phase IB prior to the initiation of construction activities and archaeological monitoring during all ground-disturbing activities and any use of heavy machinery.

Fernández Juncos Avenue (APE-2):

A Phase IA study for Intersection #5, a subaquatic Phase IB prior to the initiation of construction activities, and archaeological monitoring during all ground-disturbing activities and any use of heavy machinery are recommended.

Pedestrian Access at PR-1 Km. 3.2, San Juan (APE-3):

Since this APE includes Intersection #5, an NRHP-eligible historic property acknowledged by SHPO in 1995 (Vega 1995) under Criterion A, C, and D, a Phase IA study with an archaeological monitoring plan crafted specifically for the NRHP-eligible historic property is recommended. In addition, archaeological monitoring during all ground-disturbing activities and any use of heavy machinery is recommended.

In summary, three changes were made to the EDF Recommendation section: (1) the reassignment of the subaquatic Phase IB recommendation from APE-3 to APE-2; (2) clarification of the Recommendation section to more clearly identify the applicable mitigation measures and avoid confusion regarding their implementation; and (3) the addition of a paragraph (in the "Archaeological Potential within the APE" section) defining and clarifying the boundaries of what constitutes "Intersection #5," an area that will require a Phase IA survey. No other revisions were made to the EDF. All determinations, findings, and remaining recommendations remain unchanged and continue to be contingent upon the scope of work dated February 6, 2026.

Thanks,

1. Introduction

The Puerto Rico Convention Center District Authority (PRCCDA) is requesting quotations for professional archaeological services from qualified and experienced firms to conduct archaeological services to support environmental compliance, planning, and construction decision-making for the Navy Pier/Bahía Urbana Infrastructure Project.

Services for this effort are procured as part of the planning and development phase of the Navy Pier/Bahía Urbana Infrastructure Project and will be funded with an allocation of funds from the Economic Development Investment Portfolio for Growth (IPG) Program of the Puerto Rico Department of Housing (PRDOH), under the Community Development Block Grant – Disaster Recovery (CDBG-DR) Program.

The requested services are necessary to identify, document, and evaluate the potential presence of archaeological resources within the Areas of Potential Effects (APEs) associated with the project, which include: (1) the Navy Pier Front (**APE-1**), (2) Fernández Juncos Avenue (**APE-2**), and (3) the Pedestrian Access component (**APE-3**). These APEs encompass locations with known archaeological sensitivity, including properties listed in or eligible for listing in the National Register of Historic Places, as well as coastal and submerged environments with potential for subaquatic cultural resources.

This document defines the archaeological services that Vendors must perform on behalf of the PRCCDA which include Phase IA archaeological investigations (land-based) and subaquatic Phase IB investigations within defined APEs, as well as the implementation of documentation measures and reporting as required by regulatory agencies. Based on the Puerto Rico Historic Preservation Office

(SHPO) concurrence and recommendations¹, **Phase IA investigations** shall be conducted within Intersection #5, located within the portions of the APE-2 and APE-3 affected by the undertaking. **Subaquatic Phase IB** investigations shall be conducted within the in-water portions of **APE-1** and **APE-2**.

Services are required to support compliance with applicable Federal, State, and local regulations, including Section 106 of the National Historic Preservation Act (NHPA), and requirements associated with HUD-funded CDBG-DR programs and environmental review processes. The services requested under this RFQ include all the Areas of Potential Effects (APE-1, APE-2, and APE-3) of the project and are intended to address archaeological study requirements identified through consultation with the SHPO.

PRCCDA reserves the right, at its sole discretion, to issue awards to more than one responsive Vendor resulting from this RFQ. Awards may be made by Project and/or Phase IA or Phase IB investigations.

2. Project Overview and Areas of Potential Effects (APE)

As part of the Navy Pier/Bahía Urbana Infrastructure Project, the PRCCDA proposes the construction of three (3) components/projects.

¹ Refer to Exhibits 1 and 2; SHPO letter of concurrence and authorization dated March 17, 2026, and Memorandum dated April 8, 2026, respectively.

² Information extracted from the SHPO concurrence consultation submitted by PR Department of Housing for the Project.

2.1. Component Projects Overview

I- Navy Pier Bulkhead and New Boardwalk Project

The Navy Pier Bulkhead and Boardwalk Project is located at the Navy Frontier Pier within the Puerta de Tierra Ward on the Islet of San Juan. The site is bounded to the north by lots collectively referred to as the Navy Frontier Pier; to the south by the San Antonio Channel of San Juan Bay; to the east by the property of the U.S. Food and Drug Administration (FDA) (coordinates: 18.46170, -66.09024) and to the west by U.S. Department of Homeland Security (DHS) (coordinates: 18.461384, -66.093862).

The project includes construction of a new bulkhead extending approximately 1,246 linear feet and development of a 1,140-linear-foot public boardwalk within a 20-meter inland waterfront strip. It will be located approximately 1.5 feet (ft) seaward of the existing bulkhead, resulting in an estimated 3.2 ft seaward extension of the final bulkhead wall alignment. The bulkhead is expected to support the development of a 1,140-foot-long by 66-foot-wide waterfront boardwalk at the Navy Frontier property. The purpose is to stabilize the shoreline, address structural deficiencies, and provide safe public access along both the west and east sides.

The existing bulkhead, originally constructed in the mid-20th century, is in a deteriorated condition, with documented corrosion, structural degradation, and failing berthing elements. Select structures, including existing berths and piles, will be demolished and removed.

Proposed work includes installation of a new sheet pile wall, tieback system, and associated ground improvements, as well as in-water construction activities and inland excavation. These activities will result in both subaqueous and subsurface disturbance.

II- Fernández Juncos Avenue, Street Luis Armando Lozada Cruz “Vico C” (former del Tren Street) and Connectors Project (herein, “FJ” Project)

The FJ Project extends along Fernández Juncos Avenue and associated corridors within Puerta de Tierra, forming a primary transportation and infrastructure corridor.

The project includes roadway reconfiguration, utility installation and relocation, streetscape improvements, and pedestrian enhancements to improve circulation, safety, and connectivity. Work will involve continuous excavation along the corridor, including installation of a subsurface utility trench system and localized improvements at key intersections.

III- Pedestrian Access Project PR-1 Km. 3.2 San Juan

The Pedestrian Access Project (APE-3) is located south of the San Antonio Channel within Puerta de Tierra and is intended to improve pedestrian connectivity between surrounding districts, including Miramar, Condado, and the Convention Center area. Centered at coordinates 18.458265, -66.086558, this component aims to improve pedestrian safety and facilitate connectivity among surrounding neighborhoods for both residents and tourist stakeholders.

The project includes demolition and reconstruction of sidewalks, installation of ADA-compliant pathways, lighting and streetscape improvements, and limited utility trenching. Work will involve localized excavation, grading, and surface reconstruction within a previously developed urban environment.

2.2. Area of Potential Effect (APE)²

The project's APEs have been defined based on a determination as to the effect that the "direct APEs for this project are limited by the project boundaries, and the visual APEs are the viewsheds of the proposed projects up to the building facades across the street, the San Antonio Channel, and the Condado Lagoon." The visual APE is marked in yellow on the figure below.

² Information extracted from the SHPO concurrence consultation submitted by PR Department of Housing for the Project.

Figure 5 - Project APEs and visual APE shown on a current aerial image.

Source: ESRI (basemap imagery), as incorporated in the Section 106 NHPA Effect Determination Form prepared by the Puerto Rico Department of Housing for the Project

APE Summary³:

APE-1 is the lot at Navy Frontier Pier between the lot belonging to the ICE Engineer Corps to the east and the lot belonging to the US Food and Drug Administration to the west.

Fernández Juncos Avenue is to the north and to the south is the San Antonio Channel of the San Juan Bay. The APE for Navy Frontier Pier, Bulkhead, and Boardwalk has a total of 63,536 square meters or 15.70 acres. The visual APE includes the Fernández Juncos Avenue up to the building facades across the street to the north and the San Antonio Channel to the south. The visual APE includes facades of the buildings on the other side of the street.

APE-2 extends the length of Fernández Juncos Avenue from the entrance to Condominio Capitolio Plaza up to Avenida de la Constitución (6,230 ft) including Del Tren Street (6,710 ft), Ramón Power Street (612 ft), 3rd Street (178 ft) and 5th Street (746 ft). The Fernández Juncos Avenue APE is 89,831 square meters equivalent to 22.2 acres. The approximate APE width is 50 feet, and the visual

³ Information extracted from the Section 106 NHPA Effect Determination Form assembled by PR Department of Housing for the Project for concurrence from SHOP.

APE is approximately 100 feet wide since it extends to the facades of the buildings on either side of the streets.

APE-3 includes the proposed Pedestrian Access south of the San Antonio Channel and connects Miramar, PR District Center, Condado, and Puerta de Tierra beneath PR-16 overpass. The APE is 1,417 square meters or 0.35 acres. The visual APE includes views of the Condado Lagoon to the east and San Antonio Channel to the west.

2.3 Archaeological and Regulatory Context

The Project is located within a historically sensitive area associated with the San Juan waterfront, historic transportation corridors, and documented defensive features. Ground-disturbing activities across the APEs include both terrestrial and subaqueous impacts with potential to encounter archaeological materials.

In accordance with Section 106 of the National Historic Preservation Act (NHPA), 36 CFR Part 800, and SHPO concurrence and recommendations:

- A **Phase IA Archaeological Study** is required within Intersection #5 portions of APE-2 and APE-3

Figure 6 - Preliminary delimitation of Phase IA Archaeological Study - Intersection #5.

Intersection #5, is a historically sensitive transportation node associated with documented defensive lines and historic infrastructure. Ground-disturbing

activities within this area include excavation for utilities, roadway modifications, and related infrastructure improvements.

Given the extent of subsurface disturbance and the archaeological sensitivity of Intersection #5, a Phase IA Archaeological Study is required within the affected portions of APE-2. In addition, Subaquatic Phase IB Archaeological Investigation is required within in-water portions of the undertaking, as applicable, to support compliance with Section 106 of the National Historic Preservation Act and SHPO concurrence.

APE-3 includes portions of Intersection #5, a historically sensitive area associated with documented transportation and defensive features. Ground-disturbing activities within this area may encounter subsurface cultural materials despite prior disturbance.

- A **Subaquatic Phase IB Archaeological Investigation** is required within in-water portions of APE-1 and APE-2

I, _____, of legal age, of marital status (married/single), and a resident of _____, have been designated as the authorized representative of _____ ("the Proposer") for the procurement process referenced in the title of this document ("Procurement Process"). In such regard, I hereby certify that:

1. There are no relevant facts or circumstances that could give rise to an organizational or personal conflict of interest for the Proposer or its staff with respect to the Procurement Process with the Procuring Entity. Nonetheless, the Proposer recognizes that situations may arise that may appear to be, or are, conflicts -or potential conflicts- of interest. The term "potential conflict" means reasonably foreseeable conflict of interest.
2. The Proposer will disclose to the Procuring Entity any relevant information of an apparent, potential, or actual conflict of interest that may appear to exist regardless of their opinion that such information would not impair their objectivity.
3. As per 2 C.F.R. § 200.318(c)(1), a conflict of interest would arise when "the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of the parties indicated herein, has a financial or other interest in or a tangible personal benefit from a firm considered for a contract". Therefore, I understand that conflicts of interests may arise in, but not limited to, the following situations:
 - a) **Unequal access to information.** A potential contractor, subcontractor, employee, or consultant has access to non-public information through its performance on a government contract for disaster recovery services in Puerto Rico.
 - b) **Biased ground rules.** A potential contractor, subcontractor, employee, or consultant has worked with a government contract or program with the basic structure or ground rules of another government contract for disaster recovery services in Puerto Rico.
 - c) **Impaired objectivity.** A potential contractor, subcontractor, employee, or consultant, or member of their immediate family (spouse, parent, or child) has financial interests, or others, that would impair, or give the appearance of impairing, impartial judgment in the evaluation of government programs in offering advice or recommendations to the

government, or in providing technical assistance or other services to recipients of Federal funds as part of its contractual responsibility.

4. In the case in which the Proposer discloses to the Procuring Entity an apparent, potential, or actual conflict of interest, the Procuring Entity will take the appropriate measures to address the disclosure by taking the following actions, which include but are not limited to, eliminating, mitigating or neutralizing the apparent, potential or actual conflict, when appropriate, through such means as ensuring a balance of views, disclosure with the appropriate disclaimers, or by restricting or modifying the work to be performed to avoid or reduce the apparent, potential, or actual conflict.
5. If an apparent, potential, or actual conflict of interest is discovered by the Proposer after the Procurement Process concludes, it will make a full disclosure in writing to the contracting officer. This disclosure shall include a description of actions that the Proposer has taken or proposes to take to avoid, mitigate, or neutralize the apparent, potential, or actual conflict of interest.
6. The Proposer has no present or currently planned interests (financial, contractual, organizational, or otherwise) relating to the contract or task order that may result from this Procurement Process that would create any apparent, actual, or potential conflict of interest (including conflicts of interest for immediate family members: spouses, parents, children) that would impinge on its ability to render impartial, technically sound, and objective assistance or advice or result in it being given an unfair competitive advantage.
7. The Proposer has exercised, and will continue to exercise, due diligence in avoiding, identifying, removing or mitigating any apparent, potential or actual conflicts of interests to the Procuring Entity's satisfaction.
